

“Say no to 0870!”

“We, the undersigned, are completely opposed to the introduction of premium rate and non-geographic numbers to contact Birmingham City Council and access its services. We urge the council never to implement 0870 numbers as a way of generating income in the name of so called ‘Business Transformation’. This would be an unfair stealth tax and would disproportionately affect citizens on low and fixed incomes; potentially the very same vulnerable people who have most need of the council’s services.”
